THE WORLD TEAMB BEATS BRAZIL IN A MATCH WITH A LOT OF GOALS

The players of the World Team Protex continue demonstrating their quality and this time have won to the Brazil for 9-5 in a good match full of goals and spectacle. The draw in 4 of the halftime demonstrates the equality that there has been in the first 25 minutes where none of both teams have ever been able to come apart for more than one goal. But one partial of 5 in 1 in seven minutes has ended up decanting the result in favor of the world Team that has already been classified for semi-finals as first of group and moreover only into two matches.
