VIVA HÀBITAT BLANES WIN TARRADELLAS CUP

Viva Hàbitat Blanes has been proclaimed winner of Tarradellas Cup 2007 by second consecutive year on winning the World Team Protex for 6-4 in a thrilling final.

Both teams have left clear from the beginning their quality and concentration in a thrilling final that has been a lot contended since all players have been a lot put in the match. A match that has started well for Blanes with a goal of Armengol at minute 5 and a shot on the crossbar of Kimi but the World Team, as has made in all the match, has retorted immediately with a goal few minutes afterwards. And Armengol has again finished off a very good assistance of Raed to make on 2 to 1 that has been equaled little afterwards for Didi in a direct fault. The same player had been able to advance the world team protex before the halftime in another direct fault but he has failed.

The second half has started with speculative game from both teams until an impressive shot of Lladó from 15 meters that has put on 3 in 2 on the scoreboard. The goal that has made Kimi next leaving on 4 in 2 seemed that it had to give quietness to the local team but immediately Toni Sánchez has put again emotion with 4-3. Then Armengol of direct fault has made his third goal for the 5 in 3 but, again, Pere Varias has shortened distances with the 5 in 4. Then there were moments of tension and the world team protex has increased the pressure with continuous attacks even though they has wasted the launches of direct faults that have been very well halted by Joan Freixes in an end of match spectacular. To the last minute, in a play of counterattack, Àlex Ridaura has sentenced with the 6-4.
